

Anne Barclay
Atmospheric Landscapes
Saturday 27th April 2024
10.00 – 16.00

During the workshop I'll be demonstrating the use of rollers and wedges to create atmospheric land and seascapes.

It would be preferable if participants could bring water based oils and/or acrylics.

If they could have at least one roller around 100mm that would be a bonus.

Above is an example of Anne's work. For more information about her and to see more of her paintings, click [here](#).
